Quality functional lighting will add both value and efficiency to your unit while complimenting its look and style. ITC’s array of trusted lighting fixtures will offer a superior variety of selection while bestowing the confidence that any item will be of the utmost quality.

**NAVIGATION LIGHTING**

Our line of navigation lights are designed to work on boats up to 39 or 65 feet in length and are constructed with superior quality corrosion resistant stainless steel. Their impact resistant, watertight assembly provides 112.5° of visibility and mounts easily without any disassembly. These useful lights are small enough to fit into tight spaces and meet or exceed ABYC, UL, NMMA and ’72 COLOREGS from the U.S Inland Navigation Rules and U.S. Coast Guard Regulated Standards.

**FLOOD AND DOCK LIGHTING**

ITC’s trusted line of flood and dock lighting consists of several fixtures to suit many lighting applications. Our distinctive line of flood and docking lights offer a wide range of high caliber options that will provide years of exemplary performance.

**UTILITY LIGHTING**

ITC’s expertly designed utility lighting fixtures offer an attractive solution for your utility lighting application needs. Options including linear LED lights and porch lights are perfect for the utility lighting needs for boat and RV manufacturers alike.
Navigation Lighting

These robust stainless steel lights, available in either LED or incandescent, are constructed from corrosion resistant stainless steel for use on boats up to 39 feet in length (10 meters) and meet all ABYC, US, NMMA, & USCG specifications.

LED Navigation Lights

- Black plastic housing with optional high polished 304 stainless steel bezel
- 1NM visibility for use on boats up to 39.4’
- Watertight design
- No disassembly required for installation
- Meets or exceeds ABYC, UL, NMMA, '72 COLOREGS from the US Inland Navigation Rules & US Coast Guard Regulated Standards

XX = Finish  BK = Black Plastic  SS = Stainless Steel Bezel atop black plastic housing

Incandescent Navigation Lights

- Corrosion-resistant 304 stainless steel housing
- Two mile visibility
- For use on boats up to 20 meters (65.5 feet)
- Watertight design
- Each light includes mounting screws
- No disassembly required for installation
- Small footprint to fit into limited spaces
- Meets or exceeds ABYC, UL, NMMA, '72 COLOREGS from the US Inland Navigation Rules & US Coast Guard Regulated Standards
- 10 watt bulb included

• Simple nut mount installation

Surface Mount LED Docking Light

- High polished 316 grade stainless steel housing for superior corrosion resistance
- 300+ lumens of illumination
- Innovative side reveal offers an eye-catching accent lighting feature
- IP66 rated - completely sealed and watertight
- Power saving LED technology
- Ideal for pontoon fence and fiberglass hull boat applications
- Small profile allows for many mounting options
- Each fixture sold individually

Rubrail Mounted LED Light

- Highly polished 316 corrosion resistant stainless steel cover
- Mount to rubrail to aid in navigation and docking
- Three recessed LEDs to avoid lens scratching

Flush Mount LED Docking Light

- Fully sealed for watertight use
- Stylish, space-conscious design
- Stainless steel reflector and fasteners included for a complete and finished look
- Ivory white housing provides a unique finished when installed without the included stainless steel bezel
- LED technology fosters long fixture life and reduced power consumption

Flush Mount Halogen Docking Light

- Fully sealed for watertight use
- Stylish, space-conscious design
- Stainless steel reflector and fasteners
- Available in black and white finish options
- Optional stainless steel bezel for a premium look
LED Underwater Light

- Angled upward for superior illumination of water’s surface
- Available in 3000K, 6500K, blue, red or green LEDs
- Pictured with optional corrosion resistant high polished 316 stainless steel bezel
- Simple surface mount installation requires minimal .5” wire hole cut out

Touch Switch Linear LED Under Cabinet Task Light

- 16” linear light, perfect for under cabinet or task lighting
- Frosted lens creates an even diffused glow
- LED technology offers a long fixture life and greatly reduced power consumption
- Ultra low profile .33” thick fixture
- Capacitive touch switch technology
- Simple clip mount installation
- QAI listed for RV applications

High Performance Linear LED Utility Light

- 16” linear light with additional LEDs for higher performance and added light output
- Frosted lens creates an even diffused pool of illumination
- LED technology offers a long fixture life and greatly reduced power consumption
- Ultra low profile .33” thick fixture
- Warm white 3000K LED color temperature
- Simple clip mount installation
- QAI listed for RV applications
- Unswitched
